

## Issues discussed on Student Council Meeting 18/09/2017

- 1) Ph.D students' questionnaire
  - Should all the questions be mandatory to answer (Yes)
  - Change a question about refund budget to include other options, corrective glasses, medical refund, etc.
  - Marcin Herok will analyze the questionnaire results.
- 2) Lana Antoniuk will organize a meeting with 1<sup>st</sup> Ph.D year students.
- 3) Students' Council webpage will be mostly in English, except some official documents which will be in Polish.
- 3) Pot-luck lunch in Pipeta Club. Instead of lunch, games and social activities the evening might be organized.
- 4) SD council is not responsible for Pipeta Club so it cannot decide if other people/groups can use it.
- 5) Refunds for glasses are not currently given to Ph.D students because of lack of budget. Only informal talks were conducted with administration and nothing has changed. We will come back to administration after a questionnaire, where they can choose between couple of options, glasses, tickets, rehabilitation etc.
- 6) Photo-contest is ready - can begin in October. 3 categories were chosen for the completion, scientist at work, science is fun, microscope photography
- 8) Information about finishing a degree should be provided for students towards the end of their Ph.D. This could be of soft skills lectures.
- 9) There will be a vote for a representative in the Scientific Council in place of Ilona Kotlewska. Ryszard Cetnarski will take care of the voting day event, and Basia Juraszek will help with preparing the email.
- 10) A resolution (attachment 1) was passed to organize a vote for a new representative in Scientific Council.
